Docker

Gardle, Maven, Jenkins

PROFILE

Java/Kotlin developer with 4 years experience. Worked mainly with Spring Framework stack, different REST APIs for mobile apps and tablets, creating and maintaining them with Java and Kotlin. Most interesting thing i have worked with is creating new API for Android and iOS apps for Screwfix - British building goods company. Also worked on American car credit/retailer company to adapt search feature with existing APIs. And one healthcare project.

EMPLOYMENT HISTORY

Kotlin Developer, Capgemini Engineering

Kharkiv

Aug 2023 — Present
